Trans. of #Fizika Metallor i Metallovedenie (USSR)
1962, v. 13, no. 5, p. 658-662. (Abstract available)

DESCRIPTORS: *Metal films, *Surface tension,
*Quantum mechanics.

The statistical electron theory of surface energy of
metals is used for a qualitative estimate of the surface
energy σ_{oh} of thin metal films as a function of thickness.
It is shown that the change of σ_{oh} relative to σ_0 of bulk
specimens is basic in determining the decoverage of the
film. (Author)
